To maximize the facility space available for retreats, we reserve the right to shift groups to the most size-appropriate facility and we hold a minimum occupancy number for each building. If, however, a group would like to reserve a specific space regardless of size we require payment for the minimum occupancy (i.e. – a group of 9 or a group of 20 who want the lodge exclusively for two nights will be required to pay the building minimum of 24 times the rate.) If the group has more than this minimum, they will pay per the normal rate scale.
